

Discovering Your Family Values

How to create your family vision statement.

1. Get a posterboard or tape several pieces of paper together.
2. Brainstorm ideas, letting everyone share their thoughts.
3. Answer the following questions:
 - What are things you think are important for us to do as a family?
 - What shouldn't we do as a family?
 - How do we like to spend time together as a family?
 - What do we really care about as a family?
 - What is our family "about"?
 - What are we good at?
 - What are some things we're working to improve on?
4. When you have the answers, challenge one another to come up with sentences or phrases that really express your family values.
5. See if you can all agree on one statement.
6. Write that statement on your poster/paper.
7. Decorate however you want to.
8. Hang it somewhere that the family can see it.
